K"The disaster at Kagoshima was almost indescribable," declared Judge Urabe, a refugee from that town, who arrived here today.

"On the evening of January 12 the buildings in Kagoshima crumbled and fell. I saw men crushed to death as they were fleeing from their houses.

"All points to the north of Kagoshima were crowded with despairing refugees as I passed through. Many of these people were so stricken with fear that they resembled clay figures. Weeping women begrimed with ashes, straggled along, carrying in fants in their arms. Others were dragging with them the sick and aged. "One nonogenarian on the island of Sakura refused to allow himself to be rescued, saying he wished to die on the sacred isle. He was, however, forced along with the other fugitives."

RADIUM FREE OF DUTY. Appraisers Decide It Is on Fre List, as It Has Never Been Put or

Market.

(BI A. F. Night Wike To THE TIMES.)

WASHINGTON, Jan. 14.—Importations of radium, bromide or saits of radium are not subject to duty, according to the board of general appraisers in a decision today overruling an assessment of 25 per cent. ad valorem made by the collector at New York. The new tariff law put radium on the free list and the appraisers decided that Congress intended radium saits, since pure radium was never put on the market.

Chairman Foster of the House Mines Committee today set Monday for hearing on the bill to authorise President Wilson to withhold all radium rights in mineral lands for the government.

Representative Kent of California today declared that the construction of government radium mills would be the next logical step. He expects to introduce a bill.

local companies, he said, and that the country-wide long-distance lines should be a common carrier available to all. The conciliatory attitude on the part of the independents was recommended by Savage.

"All unprejudiced men will give credit," he said, "to the officials of the American Telephone and Telegraph Company for their action in agreeing with the Attorney-General without unfriendly speculation as to what may have been the cause of that action. I recommend a committee to confer with the owners of the long distance lines to work out a plan of operation and that this plan be submitted to the Attorney-General. It may be well that this plan be put in the form of a bill which Congress may be asked to enact, giving the Interstate Commerce Commension power to enforce the plan agreed on."

Hall, where Secretary Bain of the Federation of Trades and a band of supporters are defying the police from
behind barricades, was the main feature of the strike drama today.
After the hall had been attacked
by police and detectives without avail,
great crowds assembled, and the police were compelled to make several
bayonet charges owing to the aggressive attitude of the people, many of
whom were slightly injured.
With the final bayonet charge the
police cleared the neighborhood, and
a cordon of officers with fixed bayonets

friends is serious, as they are cut off from water.

Bain came out of the hall this evening and strolled nonchalantly about the cleared space in view of the police and re-entered the hall without any attempt being made to arrest him. The police commander explained he had no intention of again making an assault on the hall, as he considered the 300 men in it as good as in jail. The besieged have been able to get food from near-by restaurants.

A bomb explosion occurred today at Benone, slightly injuring three mounted troopers. Several strikers arrested near the place were rescued by their comrades, but were subsequently rearrested.

FORMER WIT

There also is a possibility that the grand jury will include in its presentment some reference to the deportation of Charles H. Moyer, president, and Charles H. Moyer, president, and Charles H. Tanner, auditor, of the Western Federation of Miners. Hints were thrown out that indictments had been voted against two men alleged to have been concerned in that episode, and it was reported that they were ready to stand trial, and, in fact, assume entire responsibility for the affair.

That the grand jury work is only partially completed was evideficed by the fact that additional witnesses have been summoned to testify tomorrow. Then, too, one of the important cases of lawlessness, the killing of three British subjects at Paineadale, has not passed the Coroner's inquest stage.

Largely because of the slowness of the local authorities in acting en this affair, British Americans have been urging the British Ambassador to call upon the Federal governmen for action. It was announced here that the grand lodge of the Sons of St. George has sent a letter of this tenor to Sir Cecil Spring-Rice, the epistie having resulted from representations made by the local branches of the order.

There was renewed rioting in the village of Ahmeek in Keweenaw country, tonight. Twenty men and one woman were arrested and charged with violating the Circuit Court's injunction against picketing. The prisoners were released on their own recognizance.

The trouble occurred in front of the union store, and under similar, circumstances to the disturbance of twenty-four hours before, Non-union workmen were jeered as they were returning from work and the mounted deputies escorting them thereupon attempted to disperse the crowde. One shot was fired, supposedly by a deputy, but ne one was hit.

The officers in charge of the district again appealed for reinforcements and their force was increased to twenty-five men, of whom all except ten armounted. There was fear of further trouble tonight, one officer having been attacked while patrelling his post last

WILSON OPPOSES SPOILS SYSTEM.

I "ILL CONSIDERED." Rider on Postoffice Bill Too Much for Him.

> President Declares a Veto Will Squelch It.

Even Burleson Fights Effort to Oust Republicans.

WASHINGTON, Jan. M.—Presi-ent Wilson let it be known today pointments and would veto the post-office appropriation bill now before the House unless the "rider" in it, ex-empting assistant postmasters from the classified service, was eliminated. The President, it is understood, has

and declared against the proposed pure shoe legislation in Congress. The resolutions in favor of increased freight rates set forth that the transportation system of the country is developing at a retarded pace and the consequent depression in the basic steel and other industries has become a leading, if not the determining factor in the general business recession.

A. S. Kreider of Pennsylvania, president of the association, in his annual report, characterized the pure shoe bill legislation as "ill considered"

"It would seem to me," he said, "if public sentiment and the demands of constitutents are to be guides to legislative action, particularly where it affects industries and savers of paternalism, the defeat of these bills in all the States (except two) in which they have been introduced, should have proved a strong argument against the introduction of bills along similar lines in the House of Representatives.

"No doubt the zdvocates of this legislation are well meaning, and honest, but they cannot and do not realize the injury these laws would inflict on the people whom they desire to serve, nor the result or the selling price of the commodity affected."

Kreider urged the members to exert their influence on their representatives in Congress in favor of the enactment of a law forbidding the transportation of convict mede goods in interstate commerce. He also suggested the appointment of a bom-The President, it is understood, has decided to call a half to what has been charged by civil service advotates as a tendency in Congress to break down the merit system. He was confronted in the tariff, currency and the urgent deficiency bills with the civil service problem, but in signing those measures took the position that his power of placing employees in the classified service had not been weakened and that the merit system could be applied.

The "rider" in the postoffice appropriation bill, as reported to the House, would give the Postmaster-General the right to revoke the appointment of any assistant postmaster "and appoint his successor at his discretion" without regard to the Civil Service A& or its amendments. The refugees declared that hundreds were drowned in trying to swim
across the Gulf of Kagoshima. They
add that the volcano of Sakura-Jima
has completely changed its form, several new craters having opened.

The hall of ashes ceased here today after lasting thirty-six hours. A
heavy rain has cleared the atmosphere.

is always put up in new clean bottles, with a seal over the cork. But in order to protect yourself from possible fraud through refilling, we ask all consumers to be sure and break each bottle as soon as

In a few remote instances unscrupulous dealers who have failed to work off substitutes and cheap imitations on their customers have tried refilling Duffy bottles when they could get them, hop-ing in this way to line their pockets. You can aid us to stop this practice by breaking Duffy bottles

when contents have been used.

Be sure and get the genuine—if in doubt examine your purchase—see that the seal over the cork is unbroken; the cork should be new and perfect—the name, "Duffy's Malt," is on the side of each cork. Look for the original signature on the label and the firm name and monogram blown in the bottle. Break the bottle when empty and help us to prevent fraud.

Duffy's Pure Malt Whiskey is sold by most druggists, grovers and dealers, \$1.00 a large bottle. Medical booklet and doctor's advice sent free. The Duffy Malt Whiskey Co., Rochester, N. Y.

The Senator said a minority of the people were forcing the leasing policy upon the majority by campaigns against any man who dared to differ. In spite of that, he said, he was willing to surrender his own convictions and vote for a leasing bill to set Alaska's resources free.

Estimating that the government would need at least 300,000 tons of coal annually on the Pacific for navel purposes, Senator Walsh safd the cost of transporting this amount of coal from Atlantic ports would amount to more than \$1,500,000, the greater part of that sum going to foreign ship-owners. With the building of only twenty-five miles of railroad to the Bering coal fields of Alaska this could be saved, he said, and the cost of construction repaid in one year's Evidence that the Kansas City Jexico and Orient Railroad, whose

by 1915 is transferred from the realm of possibility to probability. The original plan of the builders of the Orient was to build from Kansas City to Topolobampo on the west coast of Mexico. The road was built in sections, beginning at either end. Revolutionary troubles in Mexico stopped the work northeastward from Topolobampo after 100 miles of track were laid, while financial trouble hindered construction of the links within this country. Last year, however, the Orient finally reached Southern Pacific connection at Alpine, Tex., from Wichita and an agreement followed with the South-

To Be a Good One.

Herr Reichl informed Secretary Zeehandelaar of the Merchants and Manufacturers' Association yesterday that he will give one of his best banquets Monday night, when the members of the association enjoy their annual spread at the Alexandria. Reichl is soon to go to Kansas City and he wants the few remaining dinner functions over which he will preside to be worthy of his gastronomic art.

nounced that the matter would be taken under advisement, but the feeling is unmistakably in favor of tellinsurance.

The Sabbath eve service in Temple Sinal, corner Twelfth and Valencia streets, will begin this evening at 5 o'clock, with the introductory hymn of "Babbath Rest," by the choir, and the congregation. Dr. R. Farber, the rabbl, will speak on "The Latest on Religion." Congregational singing will be the order during the service. Tomorrow, Saturday morning, the service will begin at 9:30 o'clock, and the juvenile choir will join the quartette in all the singing of the service. Dr. Farber will preach during the service. Dr. Farber will preach during the service on "The Burning Bush," which is the lesson of the weekly periscope.

Bashful Groom Told To Kiss His Bride by Judge Who Usually Cuts Irksome Knots.

Judge Monroe demonstrated yesterday that he is as expert in tying the matrimonial knot as he is in cutting it Manuel F. Aims and Miss Teles Cuen, both aged 25 years, were joined by him in Judge Works's courtroom.

It was a jolly wedding made more oby one or two fincidents. As the couple was pronounced husband and wife, the bride's sister clasped her around the neck and imprinted a rosy kiss. The groom looked longingly at the operation.

"Why don't you kiss her?" asked dudge Monroe of the groom. "You addition of the child rive could be adoption of the child rive child rive child robe of the groom." O MERGE OR NOT TO MERGE. SOUTHWEST SOCIETY HAS THE

Founder Maintains It Should Not Lose Its Identity in the Museum, While Bishop Conaty and Others Hold Opposite View—Both Organizations Elect.

QUESTION UP.

The annual meeting of the South west Society, held yesterday after-tion in its temperary quarters in the Hamburger, building, was enlivened

organizations.

A resolution was introduced calling for the dissolution of the society on the grounds that now that the museum had been founded it had served its purpose and could no longer justifits existence.

Charles F. Lummis, founder of the society, opposed the adoption of the resolution. Dr. Norman Bridge, president of the museum; Bishop Conaty, Robert M. Bulla and Mrs. Robert J. Burdette, took issue with him.

Robert J. Burdette, took issue with him.

"We must keep the museum free from mob rule." Lummis said. "There are seventy-eight organizers who control the museum corporation. They are men free from politics and personal ambitions. If the 300 members of the Southwest Society are made organizers, then that lets down the bars to tin-horn politicians and others with personal ends to gain."

Dr. Bridge asserted that he has more faith in humanity than Lummis and that he is willing to trust the destinies of the museum to the democratic body. The doctor said that he feared the continued existence of the society would cause confusion and divert energy from the museum.

feared the continued existence of the society would cause confusion and divert energy from the museum.

"I do not fear that the mob will gain control of the museum." Bishop Conaty said. "The people who are looking after fame and personal honors will not be interested in the museum with 1000 members and to entrust the management of the institution to them."

Mrs. Burdette expressed the fear that if both organizations continued to exist there would be a duplication of work and unnecessary expense.

Will D. Gould suggested that if the society was to be put to death that it should not be done at this time, when the building of the museum is in progress, for fear of confusion.

The society re-elected the following officers: President, M. A. Hamburger; vice-presidents, Gen. H. G. Otis, H. W. O'Melveny, Dr. Norman Bridge and Maj. E. W. Jones; treasurer, Stoddard Jess, and secretary, Charles F. Lummis.

The annual reports of the secretary and treasurer were read, Lummis reviewed the labors of the society since it was founded ten years ago, and gave special attention to the work of cereting the museum buildings now in progress.

The meeting of the society was followed.

erecting the museum buildings now in progress.

The meeting of the society was followed immediately by a session of the museum organization. Mrs. Burdette was re-elected a director for a term of seven years. An interesting feature of this meeting was the report of Hector Alliot, the curator. He said that the new exhibits donated during the year aggregated \$320,000 in value. He gave a review of the more important donations.

Winning forceful, a man of many interests. Foshay was a thirty-third degree and Scottish Rite Mason, Past Eminent Commander of Los Angeles Commandery, K.T., and Past Grand Master F.&A.M., of California. He was also a member of the Ellis, Jonathan, University, Gamut clubs and a former director of the California Savings Bank and Western Building and Investment Company and also former vice-president and director of the Globe Savings Bank. From 1999 to 1919 he was also a director of the Chamber of Commerce and until the list was active in that organization, though his other interests prevented him from accepting an official position.

"He was a man who gave of his best to Los Angeles and was always willing and saxious to contribute of his thought and effort for the city's well-being," said Secretary Wiggins of the Chamber of Commerce last night. "He also had a magnetism and a whole heartedness than won thousands to him. Not alone here, but all over the States he had friends who will be shocked by his untimely death."

Though Foshay's life was a busy one, there was one recreation to which he gave full sway. That was for music. As a member of the Ellis Club he was an enthustastic worker in many a musical festival. His name was also apt to head the list or come close to the top when money was being raised to bring some opera company or great singer here or to pay the deficit after they were gone. Also as a singer, particularly at funerals, his services was also a member of the choirs of various Eaptist Churches to which he belonged in New York, Monrovia and here.

Have you considered how the Federal Income Tax will affect you

All investors in securities on which the normal income tax is withheld at the source are being subjected to considerable inconvenience.

To avoid this invest your January money in our \$100 Certificates. The 6 per cent. interest coupons are payable without deduction for income tax at the source. These semi-annual interest coupons may be deposited at your bank without the necessity of submitting a declaration of exemption.

Investors who do not object to the income tax itself, do object to the annoyance and delay connected with the collection of interest from which the income tax must be deducted at the source.

Our Certificates will relieve you of this annoyance. They will relieve you of all worry for they are absolutely safe, do not fluctuate in value and the liberal interest may be collected twice yearly without a day's delay.

At a meeting of the directors last month it was voted to levy an assessment of 3 cents per share to bolster up the sinking finances of the company, but the notices were not sent out until last Friday. The letter notifying the stockholders of the assessment says that sufficient funds for the establishing of the stockyards was early subscribed for but that the unsettled financial condition of the country caused the cancellation of many subscriptions. The letter says that the directors considered other plans for raising money, but had concluded that the assessment plan was

cluded that the amessment plan was wisest. The money derived from the assessment, the notice says, was to be used in paying bills, interest on land holdings and operation of business. The complaint filed yesterday alleges that Whitaker, Swank and Letton have "embeszled and appropriated to their own use, of the funds of the corporation, large sums of money and large blocks of stock amounting in the aggregate to more than \$150,000 and have thereby bankrupted the corporation and that the corporation has been so corruptly mismanaged that there is now no market value to its stock and that there is left of assets only about \$9000 in value, exclusive of the amount embessled by the detection of the company are widely scattered over a large territory and that the defendants procured proxies and control through the proxies and the stock issued to themselves, and have been able to retain control.

Although I have received many dozens of letters and several hundred personal communications from former La Foliette men, not one of them has signified an intention of registering as a Progressive; they still regard Governor Johnson in the same light as they did during the heat of the national campaign. It is my private opinion that the "reform pendulum has swung too far, and that the numerous State commissions fostered by the present Governor, together with his frequent protestations and apologies, unquestionably indicate that the end of his reign is at hand.

### THE SATURDAY EVENING POST 2,107,0 And Going Up From George II to Woodrow Wilson

THE SATURDAY EVENING POST has been a factor in American life. Established by Benjamin Franklin in the second year of the reign of George II, it began with a circulation of a few hundred copies. most of which were read by Colonists living within a mile or two of the Philadelphia water front.

By the time of the Civil War it had become a national weekly and its editions had grown to 90,000 copies, an unusual circulation for those days.

The Curtis Publishing Company bought the magazine in 1897, when its circulation was at its low-water mark. Since then it has grown at the rate of more than 100,000 copies a year. Its present enormous paid circulation has never been approached at any time or in any country.

METHOD OF STATING TAXABLE INCOME.

BY BENJAMIN S. ORCUTT IN THE AMERICAN REVIEW OF REVIEWS. To summarize the general features of the law as it concerns the individual taxpayer, the method of arriving at a taxable in

4. Losses in trade,
5. Bad debts.
6. Depreciation of tangible property.
7. Dividends on stocks.
8. Income, the tax upon which has been withheld at the source.
There is exempt:

There is exempt:

Three thousand dollars plus \$1000 additional if the taxpayer is a married man.

There is excluded from consideration as income, interest on bonds of a State or political subdivision thereof, bonds of the United States or its possessions, compensation of judges of the United States courts now in office, compensation of officers and employees of a State or any political subdivision thereof.

It should be borne in mind in all cases that so far as the year 1913 is concerned

employees of a State or any political subdivision thereof.

It should be borne in mind in all cases that so far as the year 1913 is concerned the tax applies to income accrued from March 1 to December 31, and that the deductions and exemptions allowed are by the same token merely for five-sixths of the calendar year. In other words, the law levies a tax on income "arising or accruing." in the year, so that income which accrued before March 1 should not justly be returned in the statement for 1913. Neither should deductions or exemptions be claimed for January and February. In some portions of the law the words "received" and "paid" are seemingly confused with "accrued." This was manifestly inadvertence and should be ignored in making out returns.

For a similar reason no deduction should be made from salaries except such as exceeded \$500 in November and December, the employee being personally responsible for the tax which may be due for salary which he received prior to November 1. For the year 1914 there should be no deflective to the salary which he received prior to November 1. duction on the part of the employers until the salary paid has reached \$3000 or \$4000

as the case of exemption may be.

The third section of the new income-tax as the case of exemption may be.

The third section of the new income-tax law relates to the tax on corporations, but it is in large measure a repetition of the corporation-tax law of 1909, and therefore all corporations and corporation lawyers may be assumed to be fairly familiar with its provisions. One important change is that the exemption of \$5000 allowed in the act of 1909 has been omitted; another is that any corporation may in the future, on proper notice filed with the Collector of Internal Revenue sixty days before the expiration of its own fiscal year, thereafter file its reports as of said fiscal year rather than of the calendar year, as now required. For 1913 all reports, however, must be made for the calendar year, as now required has already been filed. If the corporation which has filed its report for the calendar year of 1913 now desires to make the change, say, to a fiscal year ending April 30, 1914, it must make an intermediate report for the months of January, February and March 1914, and not attempt to em-

30, 1914, it must make an intermediate report for the months of January, February and March, 1914, and not attempt to embody those three months in a report covering fifteen months from January 1, 1914, to April 30, 1915.

Still another vital change lies in the fact that whereas under the 1909 law corporations were allowed to make deduction for interest received from other corporations. interest received from other corporations which had already paid the corporation tax they now must include that interest in "net facome," and make duplicate payment on the items so included so often as they may be passed from one corporation to another. This, in many cases of holding companies, may involve a triplicate or even quadruple tax on portions of income.

### THE FOREIGN LANGUAGE BORE. By H. Lewis. (With apologies to Walt Mason.)

(With apologies to Walt Mason.)

I would not drink a beaker, indeed I wouldn't ever, to the writer or the speaker who thinks it very clever to stick a foreign word or phrase into his native toague, his hearer or his reader to amaze—indeed he should be hung. Tis nothing but a vain conceit; we've a language of our own and nothing can defeat its volume or its tone. I have to hear "an fait" and "de rigueur" when one can easily say "He is very much the fashion." Oh, it makes me feel afraid, oft throws me in a passion, when the foreign-language chump begins his verbal parade; he ought to have a bump. He reminds me of the man who mixes up his drinks; he should stick to "rye" or be classified with ginks. Many a splendid story, with its plot in Spain or Hinduland, makes me old and hoary when I try to understand what those words and phrases in elanting letters mean, then I throw the thing to blazes, for I'm not a Boston bean. I don't deny my highbrow betters wouldn't take this altitude, for they're fed on foreign letters, mayhap on foreign food, but the most of us are on a lower rung, so please leave out that foreign fuss and give us mother tongue.

"Just Like You Men." [New York Sun:] "Men are idealists, women are realists," said Mrs. Wilkins Freeman, the noted novelist, at a tea in

"Woman's realism, which begins in child woman's realistic, which seems the hood, makes her seem cynical, whereas she is only perspicacious. Take, for example, the story of little Mary.

"Little Mary, a Metuchen girl, was set to watch a flock of chickens. The hens kept

together very well, but the rooster was in-clined to wander inquisitively towards an-other flock of chickens next door. Time and again she had to turn him back.

and again she had to turn him back.

"After a while she thought she had him cured of his wanderer's habit, and took up her doll a moment. But, when she lifted her head, there were the hens together in the corner, and there was the rooster strut-ting, calm and important, across the lawn back to your own family!'

"But the rooster kept straight on.
"Mary looked at him a moment, disgustedly; then she said in a low, bitter voice:
"'That's just like you men!'"

"None but the brave deserve the fair!"
Then no man should feel prouder He faces woman's powder.

But let him pluck up heart of grace To join the procession, Then when he's met her face to face He'll leave a good impression.

diate marriage must take his chances upon the happiness of wedding in haste.

Two natures are thus brought together that know nothing of each other. He has seen his sweetheart wearing her preftiest frocks and frills, curls, and, of cpurse, her sweetest smile. He has worn his best suit continually in the love chase. He has boxed up his temper and shown only the chivalry which he put on for the occasion.

Gocasion.

Had they been wise enough to have waited until summer, many of the trials of housekeeping the newly weds would have escaped. Their newly-planted love might have had opportunity to take deeper, firmer root. The four little rooms which look so spick and span in the genial warmth of the sunshiny day assume quite another atmosphere when he who is used to making a hasty toilet and rushing down to a warm breakfast in a boarding-house must hustle out into the kitchen to start a fire. The morning meal can't be gotten without it. The girl, who has always been petted, and coddled by her parents at home, snuggling in her warm bed, while her mother and Aunt Ellen prepared the tempting hot coffee, biscuits fried eggs and other appetizing tidbits finds her dream of bilss rudely shaken if she has to get out into the cold, with the snow pelting against the window panes outside, and rush the morning meal. Of course, they get baker's rolis, coffee ready ground, and potato chips, which need only heating, and the breakfast is set on the table speedily,

i for high her very first attempt meets with trouble, which brings about:
"Do you say this is coffee? I call it dishwater," he groans. "These eggs are fried to a frazzle. They're as tough as shoe leather. You can fairly taste the alum in the buns." His bride answers angrily: "Why don't you war with the grocer instead of me about the quality of the coffee and squabble with the hens over the toughness of the eggs? They probably couldn't help their being a year in cold storage. "And as for the rolls," he cuts in, "why couldn't you give the baker the recipe of the kind your mother used to make?"
"In my opinion," she resumed, "a man who is particular over his eating should hire a cook or wed one, and not ask a girl who knows nothing about it to do it."

He seizes his hat and overcoat, and the bride misses her roother ties.

He seizes his hat and overcoat, and the bride misses her goodby kiss. Of course, she sits down and has her first bitter cry, vowing married life to be a delusion and a snare.

Acily Kerr, widower, with twin sons at home, made preparation for the burial of his faithless wife. Effe Kelsey Cunningham, with four children at home, did similar service for her erring husband. Long Beach, quivering under a new sensation, expected another shock on top of the murder and suicide of the night before, but it didn't come didn't come.
Always someone must bury the

Always someone must bury the dead.

The motive which inspired Arthur E. Cunningham to end his liaison with Mrs. Viola A. Kerr is as commonplace as the actual shooting of five shots into his body and hers. Their relationship was commonplace, although both of the principals in the tragedy were anything but that. Mrs. Kerr tired of Cunningham, sought to break their business alliance as well as the mystic thread which holds "affinities" together, and he resented it with a gun.

BUSINESS FAILING. BUSINESS FAILING.

For months the real estate business in which Mrs. Kerr and Cunningham had jointly engaged was ebbing away. She noticed it and had been told that the spectacle she and Cunningham were creating was hurting business. As business partners Mrs. Kerr and Cunningham went to San Pedro Tuesday afternoon. They rode in her automobile. She drove the car, as she drove the bargains, and by force of her personality called daily at the Cunningham home and took him "to work," while Mrs. Cunningham looked on.

In the hazardous pastime of skirt-ing the three sides of the triangle, just such a denouement was expected by Mrs. Cunningham, the widow, who was too proud to admit that another woman had taken her place. It wasn't

just what the sorrow was he never learned.

Kerr is several years older than Mrs. Kerr, and is engaged in the transfer business. Mrs. Kerr was by no means handsome, but was regarded as y vivacious and of a winning personality.

At the Cunningham home there was more or less preparation for just such a tragedy. Mrs. Cunningham knews of her husband's life with Mrs. Kerr, and a few months ago she refused to continue the domestic relationship that had marked their thirteen years of married life. She wrote to her parents, Mr, and Mrs. J. H. Kelsey, of Minneapolis, and they arrived in time to console her in her grief. With her four children she will go back to Minneapolis in the spring with her parents and devote her life to the bringing up of her children.

R. J. Cunningham, father of the slayer, said yesterday that his son had

### THREE NATIONAL LEAGUE UMPIRES WITH FEDERALS. Don't Need a Conference.

Pittsburgh (Pa.) Jan. 14.—[Exclusive Dispatch.] Three of the
best umpires the national same of
baseball has ever known have signed
to act as arbiters for the Federal
League during the season of 1914.
They are Tim Hurst, Jimmy Johnstone
and "Brick" Owens.
Singularly enough, these men, each

However, the Tigers and this views on the subject now attracting so much interest in local intercollegiate circles, and he is not far from the simple truth.

A southern conference is all right in theory, but in practice I cannot say as much. In the first place, U.S.C. has grown to such an extent that it is hardly fair to the other colleges or to the university to make rules covering both aides and sises. Then there has always been trouble over eligibility and also some difficulty in arranging dates.

At the present time the institutions seem to be getting along in splendid style, there has been no trouble with dates and all are satisfied with the existing rules of eligibility, for the dual meets, so really there seems to be no adequate reason for looking up the situation in a conference.

Stocker defeated Greer by 180 points to sixty-four, scoring his first win in Grover's handicap pocket billiard tournament, and leaving Greer slone in the goose-egg column, with four straight losses.

Banks pulsed himself out of the lossers' column by beating Stocker in the first game between scratch men that has been scheduled. Scores stood at 106 to 24, at the end of the twenty-fourth inning. Banks made runs of 11, 11, 12, 13 and 15. His scratches numbered two, his safeties in a five scratches, twelve safetios and eleven misses.

Kirkiand beat Engle in the evening game by 199 balls to sixty, in thirty-seven innings. Kirkiand made runs of 13 and 19; Engle's high run was 11.

Consists of 4 durable, high-grade and everlasting aluminum pieces, which can be converted into 12 separate and practical cooking utensils, as shown below. These aluminum pieces are absolutely sanitary. They contain no traces of iron or other base metals. They will not corrode or rust. This set will be placed with Times subscribers on a very liberal basis. For further particulars inquire of any Times Agent or communicate directly with The Times.

Absolutely Practical for Everyday Use

These TWELVE FULL SIZED PRACTICAL COMBINATIONS if bought separately would

represent a retail value of MORE THAN \$20.00.

The PERFECTION SET is even more desirable, as the pieces nest compactly and require but little pantry space—a decided advantage particularly in modern apartments where space is limited.

Hippodrome.

The new bill which will come to the Hippodrome next Monday has ten big features, any one of which is likely to capture headline honors.

Included in the list are Brink's Darktown Circus, featuring the revolutionary mule Hercules; Hayes and R'Ives, with the newest outcroppings of the dancing craze; Abram and Johns, who, by the way, will be making their last appearances here; Collins, Mack and Raymond, the harmony trio who can harmonize; Johnson and Wells, dusky song and dance artists. The Three Tantalizing Maids, three of a kind who draw a full house, and Almont and Dumont, with a superb musical offering.

In addition there will be at least three first-run photo plays of the kind that Hippodrome patrons most enjoy.

The Million Club with hold an informal meeting at 2 o'clock tomorrow afternoon at the Chamber of Commerce to consider plans for future work. The chairmen of the newly-appointed committees will lead in the discussions. Encouraged by the success of the Melting Fot, the municipal Christmas tree, and other of its enterprises, this active organization will undertake a number of important ventures in the future. Friends of club members and others interested in the work of the organization are invited to the meeting tomorrow.

We act as a Bond Brokerage House for Investors who desire disinterested advice and service. Owning no bonds ourselves, carrying no securities in stock, we go into the market and buy or sell on order, strictly in the interest of our clients. Our volume of business is sufficiently large to keep us well informed concerning most securities dealt in locally. This information, uncolored because we avoid holding bonds on our own account, is at the disposal of any investor who wants the straight truth as we see it.

### Revamps The Blood And **Drives Out The Impurities**

Famous Remedy Works in the Billions of Cells to Scatter the Toxics that Cause **Blood Sickness.** 

Throughout the body billions of tiny cells are constantly at work picking out from the blood their own essential surficement. And there is one ingredient in S. S., the famous blood purifier that assists in this important cellular activity. It so attinuistes these cells, so completely gets into the tiniest interatices, that the cells sid each other in rejecting from the circulating blood those toxies and poisons that constitute disease. The body is a net work of blood vessels and the assimilable nature of S. S. S. is such that it is thus enabled to assist in the work of the liver to burn up impurities; to aid the kidneys to discharge acids and other poisons; to arouse the skin to a more healthy evaporation of poisons from the skin tissues. It is this intense and constant assistance of S. S. S. to the matural processes of cellular digestion and functional elimination that accounts for such rapid recoveries from rheumatism, catargh, liver trouble, weak tidney action and all blood disorders. S. S. being purely a vegetable combination is welcome to the weakest atomach. It interferes in no way with any of the natural secretions of the body. And by its

Influence in keeping down the tendency of germs to multiply rapidly in diseased conditions, the power of self-elimination is asserted and health is recovered. The entire absence of any mineral substance in S. S. assures a perfectly safe medicinal action without the slightest fear of any of those morbid effects so often experienced from the use of crude drugs in treating savere attacks of disordered or diseased blood. S. S. S. is so well knows, has such a host of staunch champions, and has completely effectoms such a variety of morbid blood conditions that it commands the attention of those who realise the great necessity for just such a remedy.

Get a bottle of S. S. S. at any drug store and don't permit anyone to impose upon you by offering something "just as good."
